

Great Minds Couture for Kids

Join me in my efforts to raise money for the Masonic Institute for the Developing Brain (MIDB) and bring hope and healing to other kids and families.

Great Minds Couture for Kids benefits critical programming and spaces at the MIDB designed specifically for the needs of our patients and their families. The MIDB is dedicated to fostering healthy brain function of children across the lifespan. This first-of-its-kind institute unites University experts to rapidly advance discoveries in brain health toward more effective treatments and therapies for children and adolescents in our region and around the world.

All proceeds will directly benefit the MIDB Great Minds Couture for Kids Event Fund.
